## مندلی در یک نگاه

- مندلی محصول الزویر است.
- مندلی نرم افزار مدیریت منابع اطلاعاتی (رفرنس ها) و شبکه اجتماعی آکادمیک است.
- این نرم افزار در حال حاضر بیش از شش و نیم میلیون کاربر در سراسر جهان دارد.
- امکان ایجاد حساب کاربری پیوسته را برای محققان فراهم می سازد.
- منابع اطلاعاتی با فرمت پی دی اف وارد مندلی می شوند.
- قابلیت انتقال منابع از سایر نرم افزارهای مدیریت اسناد و منابع را دارد.
- کتابخانه مندلی در یک فضای ابری ذخیره می شود.
- نسخه های مختلف تحت وب، دسکتاپ و تلفن همراه دارد.
- در حال حاضر سیستم های عامل ویندوز، لینوکس و او اس ایکس را پشتیبانی می کند.
- اپلیکیشن کاربردی متناسب با سیستم های عامل اندروید و آی او اس دارد.
- **Social features** مندلی به کاربران اجازه می دهد تا با ساخت پروفایل شخصی با دیگر محققان حوزه پژوهشی خود آشنا شوند و در جریان زمینه های مطالعاتی مهم و جدید قرار گیرند.

## نکاتی در مورد حساب کاربری مندلی

- پس از تکمیل ثبت نام لازم است تا ایمیل خود را تایید کنید. این کار باعث می شود تا در صورت فراموشی پسورد بتوانید آن را بازیابی کنید.
- در صورتی که در یکی از محصولات الزویر مانند **scopus** یا **science direct** حساب کاربری دارید، اطلاعات همان حساب را وارد کنید. نیازی به ثبت نام مجدد نیست.
- در یک حساب کاربری رایگان امکانات زیر در اختیار کاربر قرار می گیرد:
  - ۲ گیگابایت فضای ذخیره سازی ابری به صورت شخصی
  - امکان ایجاد ۵ گروه محدود (خصوصی) با حداکثر ۲۵ عضو
  - ۱۰۰ مگابایت فضای ذخیره سازی ابری به صورت تیمی
- با خرید **personal storage plan** می توان این امکانات را افزایش داد. این بسته ها تحت عنوان **premium package** از طریق مراکز تحقیقاتی یا کمپانی ها قابل خرید می باشد.

# نمایی از مندلی تحت وب

The screenshot displays the Mendeley Web Library interface. At the top, there is a navigation bar with tabs for 'Feed', 'Library', 'Suggest', 'Stats', 'Groups', 'Datasets', 'Careers', and 'Funding'. A search bar is located on the right side of the navigation bar. Below the navigation bar, the main content area shows a list of documents in the user's library. The list is sorted by 'Added (newest)'. The left sidebar contains sections for 'MY LIBRARY' (All Documents, Favorites, My Publications, Recently Read, Recently Added) and 'FOLDERS' (Create Folder..., database design, information prescription, information quality). The bottom of the interface shows 'GROUPS' and 'TRASH' sections. The document list includes titles, authors, and dates. A 'No document selected' message is visible on the right side of the document list.

**The Genotoxic and Cytotoxic Effects of Bisphenol-A (BPA) in MCF-7 Cell Line and Amniocytes**

Authors: S. Aghajpour-Mir, E. Zabihi, H. Akhavan-Niaki et al.

[View research catalog entry for this paper](#)

Journal: INTERNATIONAL JOURNAL OF MOLECULAR AND CELLULAR MEDI...

Year: 2016

Volume: 5

Issue: 1

Pages: 19-29

**Abstract:**

Bisphenol-A (BPA) is an industrial xenoestrogen used widely in our living environment. Recently, several studies suggested that BPA has destructive effects on DNA and chromosomes in normal body cells via estrogen receptors (ER). Therefore, BPA could be considered as an important mediator in many diseases such as cancer. However, there are still many controversial issues which need clarification. In this study, we investigated the BPA-induced chromosomal damages in MCF-7 cell line, ER-positive and negative amniocyte cells. Cytotoxicity and genotoxicity effects of BPA were also compared between these three cell groups. Expression of estrogen receptors was determined using immunocytochemistry technique. The cell cytotoxicity of BPA was measured by MTT assay. Classic cytogenetic technique was carried out for the investigation of chromosome damage. BPA, in addition ...

The screenshot displays the Mendeley Desktop application window. The 'File' menu is open, showing the 'Import...' option. A sub-menu is visible, listing import formats: BibTeX (\*.bib), EndNote XML - EndNote v8, X1 to X3 (\*.xml), RIS - Research Information Systems (\*.ris), and Zotero Library (zotero.sqlite). The main window shows a list of bibliographic entries with columns for Author, Title, Year, Published In, and Added. The 'Added' column shows dates in Persian format (e.g., ۱۳۹۶). The 'Filter by Author Keywords' sidebar is also visible, listing various keywords like '\*Attitude to Health', '\*Birds/physiology', etc.

# انتقال به مندی

The screenshot shows the Mendeley Desktop application interface. The 'File' menu is open, highlighting the 'Import...' option. A sub-menu is displayed, listing various import formats: BibTeX (\*.bib), EndNote XML - EndNote v8, X1 to X3 (\*.xml), RIS - Research Information Systems (\*.ris), and Zotero Library (zotero.sqlite). The main window displays a list of references with columns for Author, Title, Year, Published In, and Added. The 'Added' column shows dates in Persian format (e.g., ۱۳۹۶). The left sidebar shows a 'Filter by Author Keywords' section with a list of keywords.

**Feast for the Eyes: An Introduction to Data Visualization**

Authors: T. Brigham

View research catalog entry for this paper

Journal: *Medical Reference Services Quarterly*

Year: 2016

Volume: 352

Issue: 2

Pages: 215-223

**Abstract:**

ISSN: 0276-3869 (Print) 1540-9597 (Online) Journal homepage: <http://www.tandfonline.com/loi/wmrs20>

**ABSTRACT** Data visualization is defined as the use of data presented in a graphical or pictorial manner. While data visualization is not a new concept, the ease with which anyone can create a data-driven chart, image, or visual has encouraged its growth. The increase of free sources of data and need for user-created content on social media has also led to a rise in data visualization's popularity. This column will explore what data visualization is and how it is currently being used. It will also discuss the benefits, potential problems, and uses in libraries. A brief list of visualization guides is included.

## Mendeley web catalog

- مندلی کلیه رفرنس های وارد شده توسط کاربران را در فهرستی تحت عنوان **menedely web catalog** گردآوری می کند. الگوریتمی مفهومی رکوردها را تحلیل کرده و به مندلی این امکان را می دهد تا محاسبه کند که یک منبع واحد توسط چند کاربر وارد مندلی شده است. از طرفی جزئیات صحیح هر رکورد نیز شناسایی می شود. به این ترتیب اگر رکوردی توسط سه محقق وارد مندلی شده باشد و یکی از آنها جزئیات نام مقاله را اشتباه وارد کرده باشد، مندلی با دسترسی به اطلاعات صحیح، اشتباه را تصحیح می کند.
- کاربر این امکان را دارد که رکورد وارد شده خود را در کاتالوگ تحت وب مندلی غیر قابل مشاهده نماید. برای این کار از انتهای ستون سمت راست ، قسمت **other settings** گزینه **unpublished work** را مارک دار کنید.

The screenshot shows the Mendeley Desktop application window. The main area displays a list of references with columns for Authors, Title, Year, Published In, and Added. The selected reference is 'Feast for the Eyes: An Introduction to Data Visualization' by Tara J. Brigham, published in 2016 in the 'Medical Reference Services Quarterly'.

The right-hand pane shows the details for this reference, including the abstract, author keywords, country, language, owner, type of work, and URL. A red arrow points to the 'Tag 1, Tag 2: ...' field, which is currently empty.

**Abstract:**  
Information therapy is the prescription of information intended to help patients understand their health and their health care issues. Information therapy is not a new concept, but it is increasing emphasis on patient-centric care, the use of electronic information technologies, and the interest of consumers in health information make the use of information therapy appear more feasible than in the past. This article reviews the background of information therapy, shows the link between information therapy and patient-centric care, and suggests steps for implementing an information therapy program within a health care organization.

در این قسمت می توانید مقالاتی را که جزء نویسندگان آن بوده اید وارد کنید. این مقالات به پروفایل مندلی شما اضافه می شوند و توسط سایر پژوهشگران قابل مشاهده خواهند بود.

در این بخش مقالاتی نمایش داده می شوند که هنوز توسط کاربر در هیچ فولدر خاصی طبقه بندی نشده اند

# Organizing references

- Needs review

The screenshot shows the Mendeley Desktop application window. The main area displays a list of references under the 'Needs Review' tab. The list has columns for Authors, Title, Year, Published In, and Added. A yellow tooltip is overlaid on the 'Details' column of the first reference, with a red arrow pointing to the 'Details are Correct' button. The tooltip text reads: 'These details need reviewing. You can mark them as correct, or search the Mendeley catalog.' Below the tooltip, the details for the selected reference are visible, including Year (2016), Volume, Issue, and Pages. The 'Abstract' and 'Tags' sections are also visible.

**Abstract:**

This article describes a model for online consumer health information consisting of five quality criteria constructs. These constructs are grounded in empirical data from the perspectives of the three main sources in the communication process: health information providers, consumers, and intermediaries, such as Web directory creators and librarians, who assist consumers in finding healthcare information. The article also defines five constructs of Web page structural markers that could be used in information quality evaluation and maps these markers to the quality criteria. Findings from correlation analysis and multinomial logistic tests indicate that use of the structural markers depended significantly on the type of Web page and type of information provider. The findings suggest the need to define genre-specific templates for quality evaluation and the need to devel...

**This article describes a model for online consumer health information consisting of five quality criteria constructs. These constructs are grounded in empirical data from the perspectives of the three main sources in the communication process: health information providers, consumers, and intermediaries, such as Web directory creators and librarians, who assist consumers in finding healthcare information. The article also defines five constructs of Web page structural markers that could be used in information quality evaluation and maps these markers to the quality criteria. Findings from correlation analysis and multinomial logistic tests indicate that use of the structural markers depended significantly on the type of Web page and type of information provider. The findings suggest the need to define genre-specific templates for quality evaluation and the need to develop models for an automatic genre-based classification of health information Web pages. In addition, the study showed that consumers may lack the motivation or literacy skills to evaluate the information quality of health Web pages, which suggests the need to develop accessible automatic information quality evaluation tools and ontologies.**

**Introduction**

A widely used general definition of information qual-

Internet Project estimated that at least 75% of U.S. Internet users have searched for health information online, with 8 million Americans seeking health information online in a typical day (Fox, 2006, 2008). We were not surprised to learn that health information seeking and participation in online support groups are among the most common activities performed by patients. It is estimated that 63 million Americans visited health-related blogs and online community support groups, as well as ratings sites for prescription drugs and other health materials (Lewis, 2008, p. 16). With the aging of the country's population, leading to an increased need for healthcare information, and with healthcare providers such as the government, hospitals, and foundations increasingly moving information services to the Web, consumer use of online health information has also increased (Fox, 2006).

Online health information supports decision making for patients, caregivers, and healthcare providers. Online health searching helps in clarifying unfamiliar medical terms used in diagnoses, finding support groups, and locating possible alternative treatments (Sillence, Briggs, Harris, & Fishwick, 2007). Users of online health care information can include patients with chronic conditions, who are often expected to manage their diseases on their own between planned

**Insert citation:** عملیات وارد کردن رفرنس ها به متن با این آیکون شروع می شود. پس از نگارش متن نشانگر موس را انتهای پاراگراف مورد نظر قرار می دهیم. با کلیک روی **insert citation** باکسی باز می شود که به شما اجازه جستجوی مدرک در کتابخانه مندلی را می دهد.

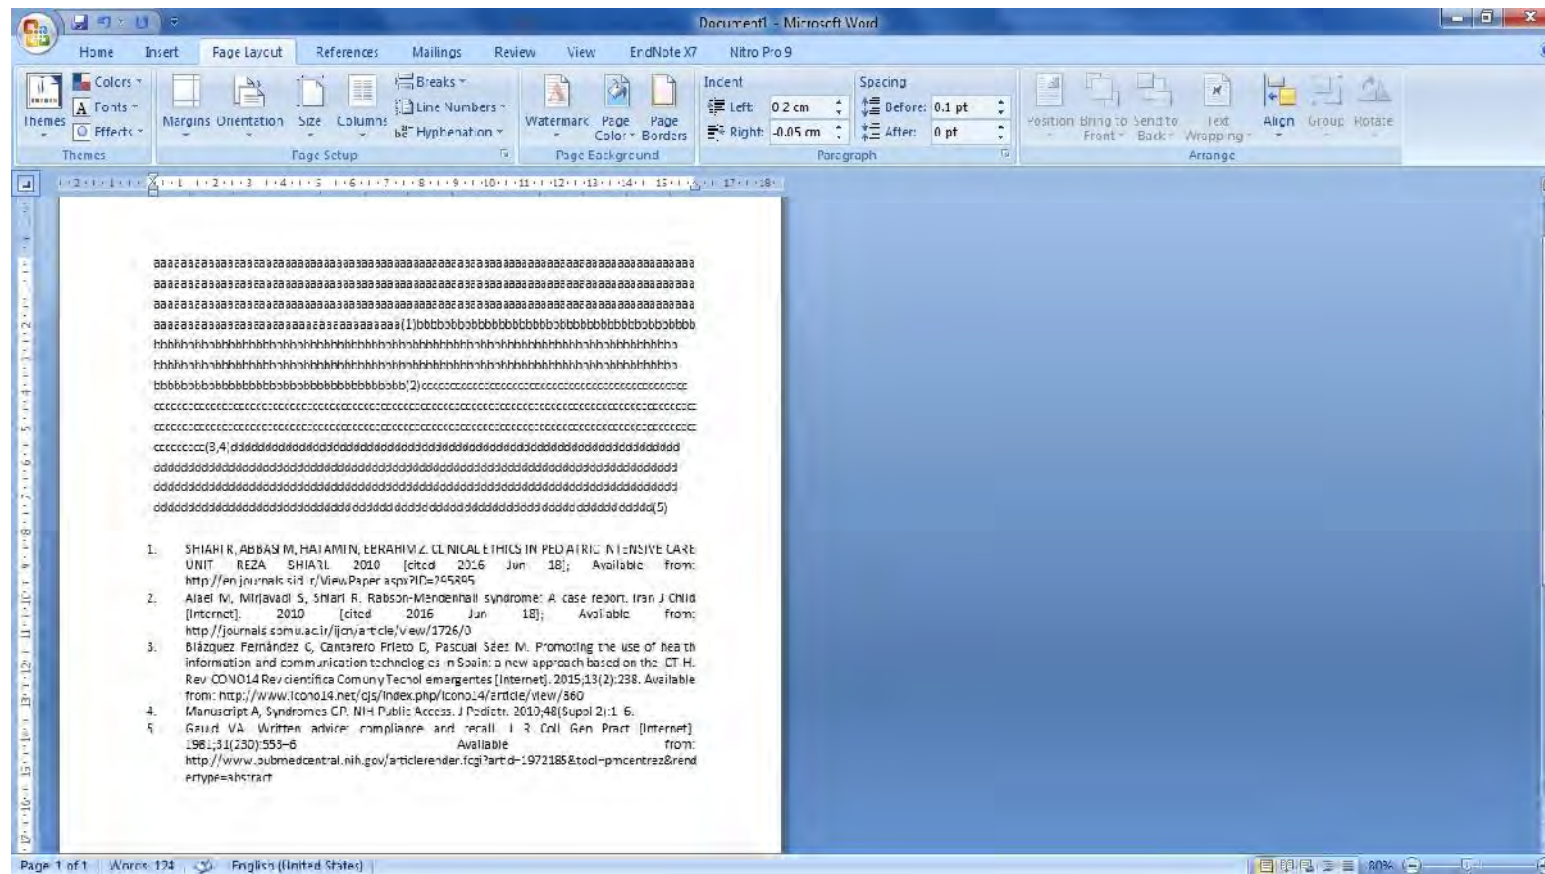

**merge citation**: اگر قصد دارید دو یا چند رفرنس را با هم استفاده کنید ابتدا تک تک آنها را وارد کرده و سپس همه را با هم انتخاب کنید. گزینه **insert citation** تبدیل به **merge citation** می شود. با کلیک روی این آیکون رفرنس ها در هم ادغام می شوند.

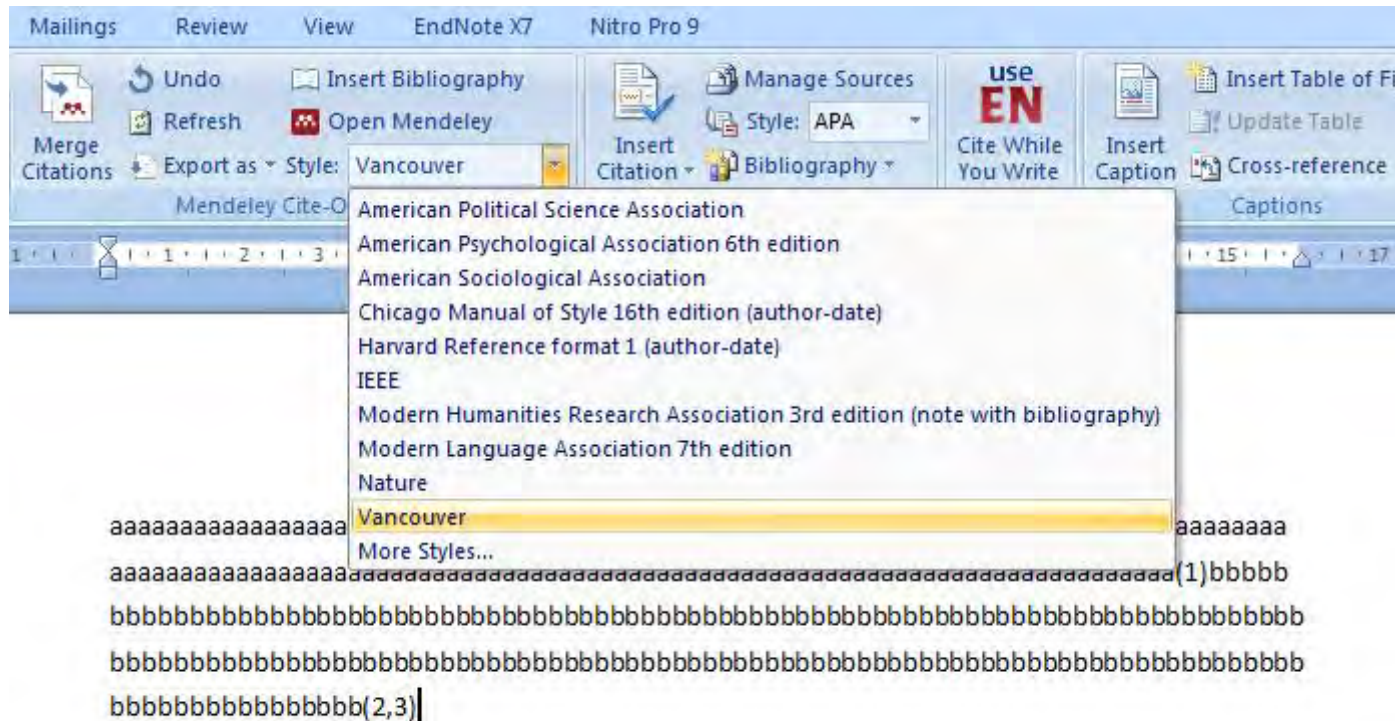

**Insert bibliography:** پس از این که رفرنس های درون متن را وارد کردید نوبت به فهرست منابع یا ارجاعات پایان متن می رسد. برای این کار از گزینه **insert bibliography** استفاده کنید. منابع بر اساس استایل رفرنس نویسی شما در جایی که نشانگر موس قرار دارد فهرست می شود.

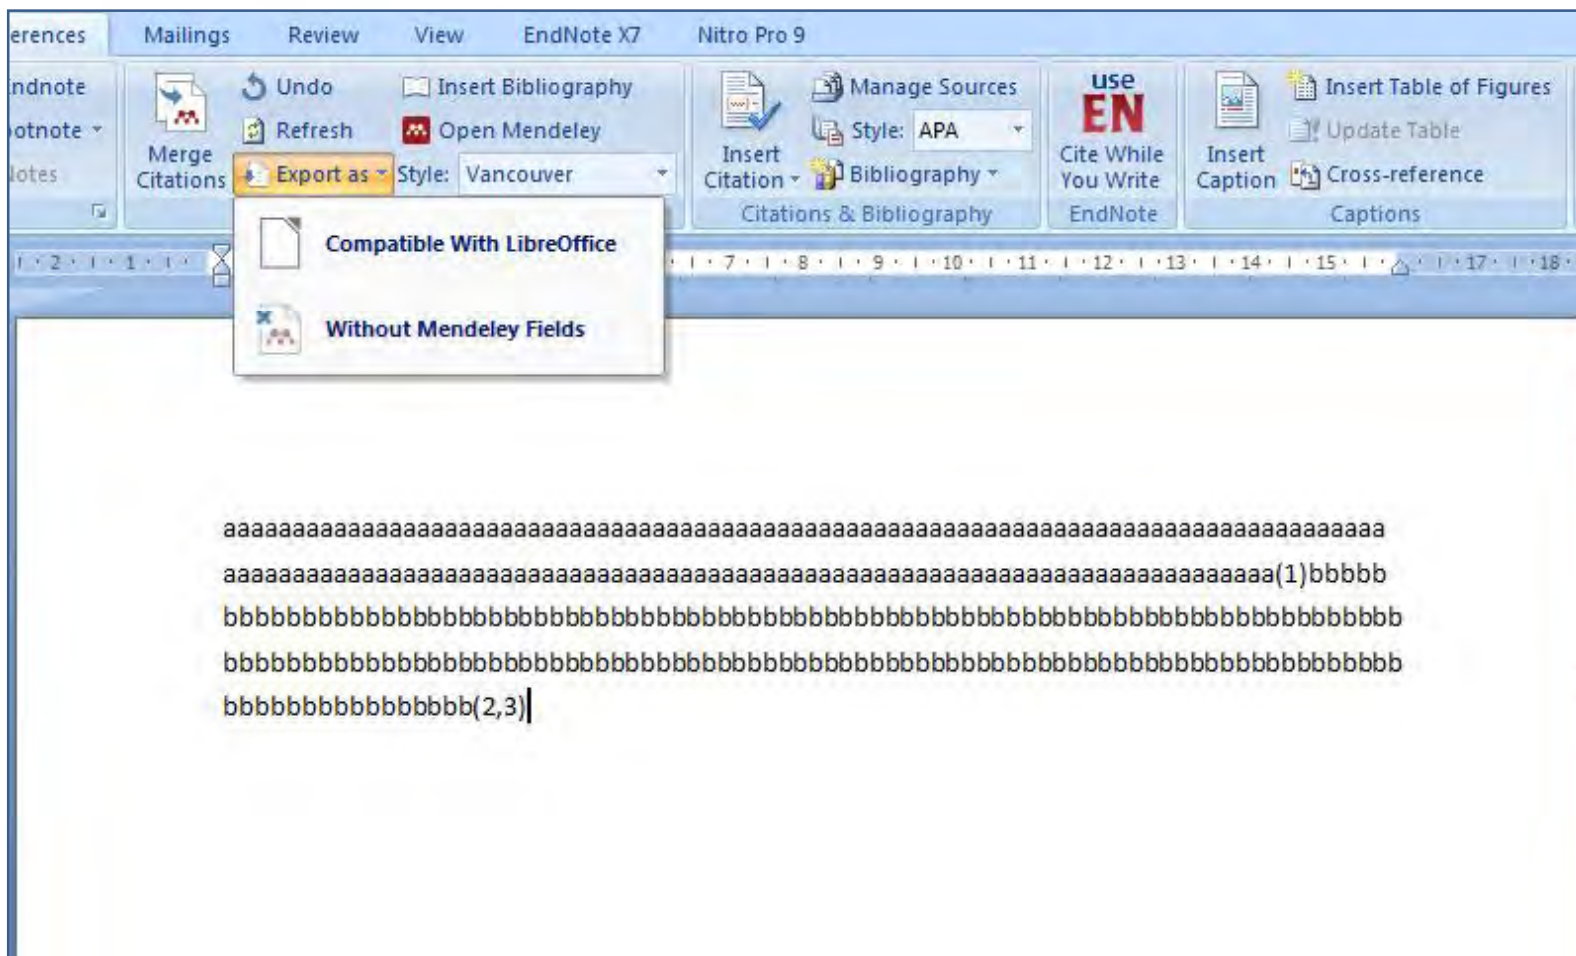

**Refresh:** در صورت انجام هر گونه تغییر در جزئیات رفرنس ها مانند اصلاح سال نشر، نام نویسنده و ... که در مندلی صورت گرفته باشد با زدن این گزینه اصلاحات صورت گرفته در ارجاعات درون متنی و برون متنی نیز اعمال می شود.

**Style:** از طریق این منوی کرکره ای می توانید نوع استایل رفرنس نویسی خود را انتخاب کنید. اطلاعات داخل متن نیز با تغییر استایل تغییر خواهند کرد.

از این گزینه می توانید برای ذخیره متن مقاله خود به صورتی که قابل تبدیل توسط نرم افزار **Export as** **libre office** استفاده کنید. در صورتی که بخواهید متن را بدون **without mendeley fields** ذخیره کنید می توانید از همین منو گزینه را انتخاب کنید.

**Abstract:**  
Bisphenol-A (BPA) is an industrial xenoestrogen used widely in our living environment. Recently, several studies suggested that BPA has destructive effects on DNA and chromosomes in normal body cells via estrogen receptors (ER). Therefore, BPA could be considered as an important mediator in many diseases such as cancer. However, there are still many controversial issues which need clarification. In this study, we investigated the BPA-induced chromosomal damages in MCF-7 cell line, ER-positive and negative aminocyte cells. Cytotoxicity and genotoxicity effects of BPA were also compared between these three cell groups. Expression of estrogen receptors was determined using immunocytochemistry technique. The cell cytotoxicity of BPA was measured by MTT assay. Classic cytogenetic technique was carried out for the investigation of chromosome damage. BPA, in addition ...

Journal: **ARCHIVES OF OSTEOPOROSIS**

Year: 2016

Volume: 11

Issue: 1

Pages:

**Abstract:**

The Summary A high prevalence of hypovitaminosis D has been reported in cancer patients. Low levels of 25-(OH)-vitamin D were found in 158 of 162 (97.5 %) inpatients with breast, lung, and colorectal cancer under active treatment, with severe deficiency (<20 ng/ml) in 77.2 % and moderate deficiency (20-30 ng/ml) in 20.4 %. Purpose A high prevalence of vitamin D deficiency has been reported in cancer patients. Nevertheless, vitamin D serum levels have been checked in few patients. Information about the frequency of hypovitaminosis D in cancer patients in Argentina is unknown. The aim of the study was to assess the frequency of vitamin D deficiency in patients with breast, lung, and colorectal cancer. Methods A prospective observational study was designed for cancer patients admitted to the general ward in 2014. The patients included had breast, lung, and colorectal cancer. All of t...
